ECO FRIENDLY + ECO-NOMICALLY FRIENDLY

TECHNOLOGY UPDATE

Are you aware that most bulk CO₂ systems vents up to 30% or more of the carbon dioxide you pay for when being filled or not in use?
HELP US STOP THE VENTING MADNESS!

Over 30 years ago, cryovac bulk CO₂ tanks were introduced by gas suppliers across the country as a solution to the inconvenience and cost of managing a high-pressure cylinder program for beverages. Issues associated with constant run-outs, missing cylinders, damaged floors, keeping an inventory of rusty metal tanks, etc. were practically eliminated by this rather dated technology.

In this case though, with the good news comes some bad news...

Yes, the cryovac bulk tank might seem like a better option when compared to personally overseeing a virtual cylinder warehouse in your business but there are several BIG concerns pertaining to the use of this technology within an indoor cultivation facility. In order to maintain internal pressure, these tanks must vent a considerable amount of CO₂ into the atmosphere when being filled and when not being used.

HOW MUCH, YOU MIGHT ASK? UP TO 20% – 30% *(This depends on the age of the tank and how many times it has been refurbished.)*

BAD for the environment and even WORSE for your bottom line!

If you are NOT currently enjoying the peace of mind that comes with true 24/7 service or saving the 20-30% that comes with using an eco-friendly, proprietary closed loop CO₂ system or working with an honest, employee owned and operated CO₂ supplier, CONTACT US now by visiting our website
WWW.GREENCO2SYSTEMS.COM.

Let us show you how we can help you BE GREEN and SAVE GREEN!

INCREASE IN YIELDS

INDOOR CULTIVATION & EXTRACTION FACILITIES

20% - 50%

Increase in yield with Green CO₂ Systems patented enrichment technology.

GREEN CO₂ Specializes

in indoor cultivation facility safety and monitoring set up.

GREEN CO₂ Systems

patented solutions works with most extraction technology.

INCREASED REVENUE POTENTIAL

BE GREEN AND SAVE GREEN

Using our INDUSTRY-LEADING PATENTED TECHNOLOGY, we've set new safety and efficiency standards in Colorado, Oklahoma, and Las Vegas by providing an A-to-Z CO₂ solution. With our 24/7 external fill capabilities, our no-hassle CO₂ system is the most secure method in serving your operations.

OUR FLAGSHIP SYSTEM

- A high-pressure system that remains on-location, which eliminates interruption to business operations and customer fulfillment
- Meets the Compressed Gas Associations High Pressure Standard
- Our proprietary system can be custom-tailored to meet the CO₂ needs of facilities of all sizes with capacities of up to 1,500 lbs.
- Enables on-site filling of the system through an outside fill box
- Requires ZERO venting at time of fill

LOGICO2 GROW & ENRICHMENT VALVE

- Adjustable PPM and dispersion controller
- Adjusts in 50 PPM increments from 700 - 2,000 PPM's
- Placed at canopy height
- Internal Photo Cell prevents dispersion during night hours
- Highest accuracy PPM Controller on the Market - +/- 10 ppms
- Green LED indicates when system is actively dispensing CO₂
- UL-Listed and Approved

LOGICO2 MK9 CO₂ SENSOR

- Parts Per Million (PPM) sensor with display that measures the amount of CO₂ in the atmosphere
- Monitors CO₂ Levels for Life Safety purposes and shuts off the primary system when dangerous CO₂ PPM levels are detected. This market-leading feature ensures a safe working environment for your employees
- Paired with strobe lights and audible horn, alerting when high levels of CO₂ are present (5000 PPM)
- UL-Listed and Approved

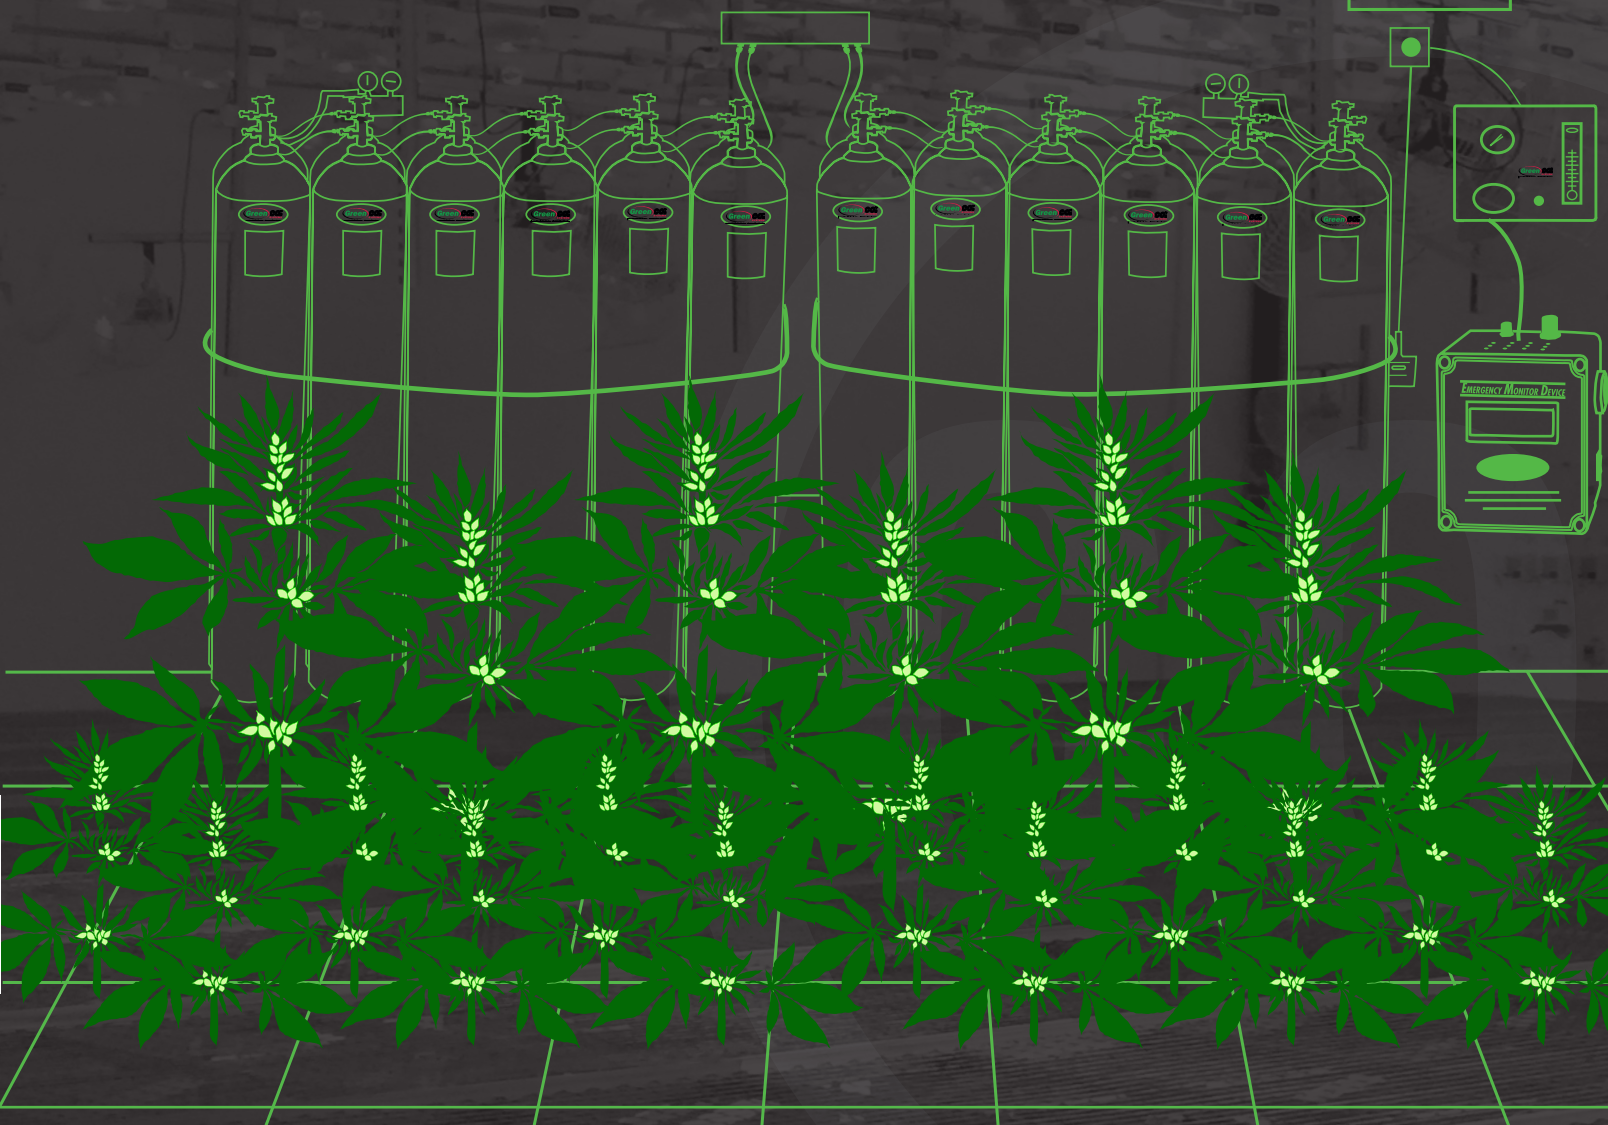

LOGICO2 CENTRAL UNIT

- Displays CO₂ % and PPM-TWA readings on screen
- Displays real time PPM levels at canopy height
- Displays CO₂ PPM levels in each room outside of enriched rooms
- Controls up to 12 MK9 CO₂ Sensors
- Can be paired with Sniffer Mod-bus for reading access on PC's
- UL-Listed and Approved

YOUR ONE-STOP SHOP FOR CARBON DIOXIDE DELIVERY, STORAGE, MONITORING & PERMITTING

FLASHING LIGHT MEANS
CARBON DIOXIDE
LEAK DETECTED
EVACUATE ROOM

- + 24/7 SERVICE
- + NO CYLINDER SWAPPING
- + NO VENTING-SAVING YOU \$\$
- + LOGICO2 CO2 DETECTION AND LIFE SAFETY PRODUCTS
